Agricultural.

Much of the prosperty of a country depends upon its Agriculture. Indeed this branch of industry may be considered the base upon which all other branches rest.—Without it, manufactuers would not exist, and the mechanic arts would be of the rudest and most simple kind. Commerce would languish, and there would he universal stag-nation. Education would be neglected and morals would degenerate. Every interest in a State has a close connection with agriculture. Let the plough of the world stand still, and the wail of a runed world istand still, and the wall of a runned world would reverberate along the arching heavens. It is the highest interest of a country for an encouragement to be extended to agriculture and that it be pursued with skill directed by an enlightened mind. Every neighbothood illustrates on a small scale, the effects of a shiftless tillage. We see the ruin and evils in miniature, which would cover the land were the whole to be managed as we have suppused. These managed as we have supposed. These points need not be clucidated at length for our own experience and observation attest their truth. But what we need, is a thorough appreciation of the results on a large scale, when whole States are under the control of men who are doing nothing for improvement, and taking no measure for repairing the wastes which constant cropping pro-

We have called up this subject at the present time, to offer some considerations as to the effect of slavery on the agricultural in-terests of the country, and the results which that system is working out where it has had "ample scope and verge." The more intelligent and discerning of the Souther-ners see how their section is falling behind ners see how their section is falling behind the sterile and rocky North end are beginning to cry out to arrest public attention and the desolations now growing apare...

The census revealed to us the fact that large numbers of the people of the South had left for the free North West. And now emigration is draining off still larger numbers. The cause of this is the deterioration of the lands, which have been exhausted under the exacting lash of slavery. Virginia, with a soil as rich as any in the world, with navigable rivers opening the interior to the ocean, where her products may find means of ready transportation to any portion of the habitable globe, with mineral treasures which but few countries are favored with which but few countries are favored with, a climate between the extremes of heat and cold, where labor is easily supported. Virginia, with all these advantages, is fast becoming a desert; where the stately manification of the planter once stood, the wild heast of the ferest makes his lair. A few mouldering ruins here and there, attest that once a wave of civilized life rolled over the land; it has passed away leaving melanches monuments behind. In the States further South, the process of degeneration is fast wearing away the lives of the States, and exhausting them of their productive energries. Even now the comparatively young States of Georgia. Florida and Albama, are showing signs of scaility. Slavery has poisoned the soil and unnerved the arm of the aborer. With it, agriculture must die out, for there can be no such thing as prosperous husbandry, when the hand which holds the plough is manacled. The same cause which has reduced these States will continue to operate so long as it is suffered to exist-the blight and mildew of slavery will not decrease as the system increases in age; so that the future affords us no hope, unless we rid ourselves of the curse. Labor will continue degraded and be used only at a loss colong a fire warranted and activited. so long is it is unrequited and extorted.

Slavery therefore strikes at one of the elements of national prosperity and indeelements of national prosperity and independer ce, when it prostrates agriculture.—
With the fall of the main pillar, the whole edifice of industry will fall and bury beneath the ruins the entire land. Argriculture is a vital interest and cannot be destroyed without the lasting and irreparable injury. With the incubus of Slavery removed, agriculture would revive, and with it would spring up all incustrial pursuits. They would grow and expand, mutually strengthening the State. The entire force of public affairs would be changed. State. The would be cho

we should hardly know our own selves in the new and changed order of thing.— Slavery is the great disturbing cause which is ever at work and ceaselessly throwing the whole machinery of industry and economy out of balance. Extirpated, the whole would move with regularity. We should hardly know our own selves out of balance. Extirpated, the whole would move with regularity, and there would be accomplished those results, which are legitimately to be expected to flow from the principles we profess to have made the corner stones of our Republican government.

THE WAY CATTLE ARE WINTERED IN ILLINOIS.—A correspondent says the way some of the old farmers of Illinois winter their cattle, is enough to sheck any one with common sense or feelings of humanity. with common sense or teclings of humanity. The corn is husked on the stalks in the field in the fore part of Winter, and then the cattle are turned in to eat the bleached stalks. The wheat is thrashed on the prairie and the straw loosely piled, and when must needed by the stock is found wet through and rephase fragen; and the only through, and perhaps frozen; and the only shelter afforded many thousands of eattle is such as they may find under the lea of a rail fence, or in a patch of brush. "Is it a wonder," he asks, "that so many cattle die wonder," he asks, "that so many eather de here every Winter? Now, April 11th, the poor heasts have no fodder, and the snow falling and mud frozen stiff. This and the adjoining countries pay every year a tax to carelessnes, which, if levied by government, would almost raise a rebellion."

Woman's Rights.

We have never been an upholder of the new ism of Woman's Rights, and have al, ways looked with disgust on the many attempts which have from time to time been made by a certain class of straight-necked sour-visaged mesculine and fanatic females who are ever preaching the theory that "wimmen" should have the privilege of wearing pantaloons and that men should be made to tend the babies and get the dinners. but to a certain extent we think the Woman's Rights movement should be sustained hy all lovers of justice.

We have before us a petition which was made by a large class of the citizens both male and female of Ohio to the General Assembly of that State. It states that-"Whereas the women of the State of Ohio are disfranchised by the Constitution solely on account of their sex. We do respectfully demand for them the rights of suffragea right which involves all other rights of citizenship-one that cannot justly be withheld; as the tollowing admitted principles of government show, First, 'All men are born free and equal. Second. Government derives its just power from the consent of the governed. Third, Taxation and representation are insenerable.

We the undersigned therefore petition your honorable body to take the necessary steps for the revision of the Constitution, so that all citizens may enjoy equal political rights." The report by a Select Committee on this memorial strikes us as a just and impartial one, it is quite lengthy or we should he inclined to publish it verbatim. It states that after due consideration the Committee have come to the conclusion that the prayer should be granted. It strikes us that petticoats would be rather out of place, (especially hooped ones) crowding into our dirty Engine houses to cast their votes or forcing themselves into dram shops, and other similar holes for electioneering purposes but maybe our prejudices have got the better of us and we shall live to repent of our folly, still we think that most women would prefer to leave the dirty work to us men is their property rights were only attended to and we are sure that it would lower the esteem for our household idols if their situation was made as unnatural and unfeminine as the rights of all political privileges would heatow.

But we are equally certain that the pres ent state in which woman's property is held in not only the State of Ohio but many o'hers shows a great want of justice or forethought in our legislators.

We cite a case in explanation: "A woman who had a fortune of fifty thousand dollars, married. All this by the present year he died, leaving a Will directing that the widow should have the proceeds of a certain part of this property as long as she remained unmarried. It she married again or at her death it should go to hi heirs. How different in all these cases is the position in case of his wife. There is then no officious inter-meddling of the law in his domestic affairs. His house, sad and desolate though it be, is still safe and secure rom the feet of unbidden guests. He has all, everything, even his wifes bridal presents are his. If the wife had lands in her own right and if they had ever had a living child, he has a life estate in the whole of it, not a beggarly third part. Such is the effect of mans government of woman without her consent, such the protection he affords her. If this matter cannot be impartially arranged without suffrage for the women, which is the worst evil of the two? We leave the answer for the hundreds whose duty it is to set this matter right.

The March of Freedom. There seems to be a general re-action in the Slave States, from the wild fanaticism in behalf of wrong which existed at the time of the Presidential Election. In Delaware Maryland, Kentucky, and Missouri, steps have been taken which will lead to the emancipation of their slaves at no very distant day and even Virginia, is preparing for a result which cannot be long deferred. In Missouri particularly emancipation is making great progress, there are in the State 30,000 Slave owners, and 770,000 land owners who do not own Slaves. The Northern and Eastern 22 counties, excluding St. Louis, have a population of 95,704 among which there are just 1019 Slaves !-In this portion of the State then, Slavery is practically extinct, and the same fact is true in a less degree of other counties. The prosperity of the neighboring State of Iowa has excited alarm, and the following state ment shows a good foundation for it, particularly when we consider that the Missouri sales include those in the city of St. Lou is, where land is nearly as high as in New York city, in the year ending 1855 Iowa sold 3,822,694 acres for \$4,741,342 and Missouri, 2,930,199 acres for \$1,282,072 ! But Missouri is becoming a "Western," and not a "Southern" State, and her population, and wealth will now increase with amazing and unparalelled rapidity.

III has often occurred to us that by dredging Easton's Pond, and deepening the northern portion of it, using the material so obtained to fill in that part next to the beach, that straggling, shallow, ague-dispensing, frog raising puddle, might be converted into a beautiful lake, and the value of all the property upon its shores increased ten fold. No more beautiful spot would exist upon this island than the gentle hill sides that surround it, if by removing its marshy borders deepening and circumscribing it, it was rendered a fit location for villa sites. The expense would probably be large, but if assessed upon the estates which would be immediately benefitted by it, and the city which would gain some acres of exceedingly rich and productive soil north of the beach, the tax would be light, upon each, and repaid doubly by the enhanced value of the neighborhood. We simply advance the idea, and if practicable hope to see it carried into effect, and our swamp lots converted into eligible villa-sites for "Bennett" to advertise among the "two hundred" which he is superintending the sale of.

THE MERCHANTS BANK. This institution have recently enlarged and improved their Banking Room on Thames-street, and it is now one of the most elegant business rooms in the State .-The ceilings are white and the walls beautifully colored, the wood-work and counters elaborately finished, and the counter surrounded by an ornamental iron railing .-The front is of fine french plate glass of large size, and the whole warmed by registers from a hot air furnace in the basement. The whole work is in excellent taste, and was done in the best manner by M. W. Spencer, Esq., a most thorough mechanic. The Savings Bank occupies the second floor. What would our forefathers have said to the iron, plate glass, gold and carving?

Paul Backus, alias Paul Overing, a colored man who formerly belonged as a slave to the Overing family, died very suddenly yesterday morning about ten o'clock. He was picked up by Mr. Hazard, the overseer of the poor, and put into an express wagon in which he was bolstered up with pillows, but hefore reaching his house he expired.

He was a singular character and well known in the city. Some considered him deranged, but he was sensible on most points. He owned about \$1000 worth of Real Estate, but was too penurious to enjoy it, and scarcely allowed himself any of the comforts of life. He had a fancy that he was much more wealthy than h really was, and supposed that many persons owed him large sums of money.

Saturday he was worked up into a state of extreme excitement by a gang of boys, who tormented him in the streets; and although Physicians say that he died of a heart complaint, it is not impossible that this excitement may have hurried his end. He was at one time of his life, quite a celebrated cook. This instance should be a warning to the many noisy, ill-mannered boys in our streets, and to their parents too-It seems quite time that some means were taken, by parents or the city authorities, to prevent such outrages as these which are committed by careless and unprincipled

We would call the attention of our readers to the notice in to-day's paper, of the Rev. Dr. Sparry, of New York. Rev. Dr. S. will deliver a lecture exposing the mys. teries of Popery, and as he is a convert to the Protestant faith from the Church of in misrepresenting his aims, and denouncing Rome, we have reason to think that his lecture will be well worth attending.

GENERAL NEWS.

Dr. Cheever. We speak for God, not for party; at his command, not man's; for divine truth and justice, not political supremacy. We speak for justice disregarded, mercy trampled on, the law of love despised, truth fallen in the street. We speak for man, for the op-pressed, for those drawn unto death, for the dumb in their terrible suffering, for a help-less persecuted race, and for Christ himself, in them cast out and crucified. We pro-claim, as we are communded, God's judg-ment against the unrighteous judge and the iaw of iniquity.

A solemn question, indeed, it is, whether there is virtue enough, regerd to God enough, experienced power of his word enough, benevolence enough, justice enough and indignation at outraged justice, to purge off this iniquity, to repel, rebuke, and anni-hilate this mighty wrong. Was ever the sacred seat of justice so polluted? All the unjust decisions in the whole history of Great Britain are feeble, ineffectual, evanescent, contracted, compared with this, which concentrates such deliberate implety against both God and man. Now that this monstrous crime has been

if the people permit it, nationalized, now that it has been judicially baptized with the sacredness of the constitution, as the first-born child of freedom, and so our freedom itself baptized as a pirate, what remains for us but to throw ourselves upon the word of God? Here we stand. This is our last citadel. The blood rushes to the heart; if there be strength enough to send it back with a new life through the system, we are eafe. If not, we are lost, and we go down more ingloriously, more basely, than ever any nation under heaven did. The judgo has occupied the constitution as a Border Ruffian, with the decision that the African race among us are to be regarded only as property, that they are fit for nothing but slaves, and have no rights that white men are bound to respect. Let now the insulted Christianity of our churches rise in its majesty, and in the name of God condemn majesty, and in the name of trou condema and repudiate the dreadful wrong. Let the churches take the position that the claim of property in man is sin, and consequently that no slaveholder, persisting in it, can proper y he admitted to the Christian Church. Let God's word be applied. Let the ministry everywhere speak out. If they had done this from the beginning, this tremendous iniquity of judgment never could have been perpetrated. And the ministry would have spoken, if the churches had encouraged and permitted it, if our conserva-tive Christians had not kept them bound.— But they have followed the lend of their but they have followed the fend of their people, instead of leading them. They have trembled before their people, and when they have ventured a stealtity word of admonition, it has been in such a partial, pitful, apologizing way, as if they had been stealing sheep instead of feeding them.—They have been muzzled by their congregations, and forecosts have acked their congregations. gations, and for sooth have asked their congregations how much and what they should ay, instead of telling their congregations from God what he commands them both

paster and people, to think and to do. There are few positions more despicable, to which men ever reduce themselves, then that of a minister of Christ, appointed to lead and instruct the people, asking them to lead him, and to give his tongue its marching orders, and promising never to preach anything but just what they please, or what they think important for the pew rents.—The minister has mistaken his place, who puts himself behind his people instead of hefore them, especially when any great conflict between God and the Devil, Christ and the powers of darkness, is coming on. to which men ever reduce themselves, than and the powers of darkness, is coming on.

The above is from the pen of the Rev.

Dr. Cheever, of the Congregational Church. Dr. C. is one of those men who has u keen appreciation of justice, and right, a bold and unflinching spirit which makes him capable of its defence, and industrious energy which loses no opportunity of vindicating it. He is a great and worthy man, one whose tongue never falters when the interests of humanity are at stake, who re_ gards not popularity, nor the malice of those who seek to defame him, but bending his steps toward the temple of Right, permits no man to stay his journey, and no interest to detain him by the way. His tongue falters not, nor does it speak softly of iniquity, though pulpit and people alike join his course. He is not alone, thank God!-The word of inspiration which has fallen from his lips and those of his eccentric coworker Henry Ward Beecher, have been seed quickened in ten thousand hearts, and are daily bringing forth new fruit. The We have recieved the Rhode Island | pulpit at least is being fast arrayed against Dord in his a onflict with LIBERT and RIGHT.

INTERESTING FROM HONDURAS— INAUGURATION OF A BRITISH LT. GOVERNOR OF THE BAY 18-LANDS—SIX AMERICANS SHOT IN GUATEMALA-SAN SALVA DOR DECLARED FOR WALKER.

NEW YORK, April 27,-The Herold has ndvices from Honduras of April 1st. Mr. Stevenson the British Superintendent at Belize, had left a few days previously. Mr penze, and lett a few days previously. Mr. Seymour, his successor in office, landed from the British brig-of-war Arab, on the 30th ult, and next day was sworn into office, with much ceremony, On the following day, the Arab took him down to Rustan, where he was sworn in, in the name of Queen Victoria, as her Majesty's Lieutenant Governor of Bay Islands. This fact ant Governor of Bay Islands. This fact caused much excitement, as it seemed to indicate that England had no intention of ceding the colony to Honduras. Strong prejudices still existed in Honduras

and Guatemala against our countrymen. In Guatemala six Americans had been summarily shot and Others banished from the country, by order of Gen Carrea. It was reported that the Guatemalian army,

under Gen. Savalos, in Micaragua, had been defeated, and entirely dispersed. It is also reported that San Salvador bad been declared in favor of Gen. Walker. New York, April 27. Later from Venezuela .- The Herald has

THE REGINNING OF THE END.—The Death Knell of Quackery.—"Oh, blessed health!" exclaims Storne, "its thou who enlargest the soul and openest all its powers to receive instruction and to relish virtue.— He that has thee has little else to wish for he that is so wretched as to want thee, wants everthing with it." The truth of this apostrophe every one must acknowledge poor Sterne spoke from sad experience. And yet, familiar as every man is with the truth herein expressed, no mortal could compute the members who ruin themselves in body, mind, and fortune by neglecting to employ the proper remedies when health fails. How is this neglect to be remedied? The evil

is its neglect to be renedict? The cvil has become so consecrated by age, that the man who undertakes to amend it requires no odinary hardihood, such a man is Professor Holloway.

The honest laborer in the cause of humanity finds no sadder discouragement, than in the complacent indifference with which people prefer rather to endure a low existing ple prefer rather to endure a long existing evil, than to incur the trouble necessary to get rid of it. The more aged an error has become, the more difficult it is to remove it. This is true in an especial manner of the art of healing, as it was known and practised before the advent of this wonderful genius whose mission has been to re-estab-lish the treatment of human ailments in a

rational way.

One by one the venerable abuses that have disgraced the past are disappearing, and among the rest, the errors that have crept into medical practice have got their dismission papers, and are obliged, to use a vulgar phrase, "to cut and run." Where, vulgar phrase, "to cut and run." Where, it may be asked, are the proofs? Proofs! Why, there is one great, patent, palable fact, which has been staring the world in the face for the last twenty years, and working its way through popular prejudice into pop-ular favor with a success which is the most unquestionable evidence of its power as a proof. The medicines of Professor Holloway have been silently powerfully effecting a change in the science of physic which the world itself has begun to wonder at. It is well known that the causes of all the diseases and sufferings to which people are subject are very few, although their indications may be numerously varied. The old plan of curing diseases was by effecting their results without affecting their primary causes.—
Professor Holloway initiated a new mode of
treatment by the discovery of his Pills and
Ointment, which, whilst immediately grappling with the ultimate symptoms, also to the seat all the disease and eradicate the first causes, thus destroying all subsequent liability to similar affections. not mean to praise these Pills and Ointment. We confine ourselves to stating facts and are perfectly satisfied that no culogy is needed. They speak for themselves.—Mabile Regis-

it has proved itself to be The Medicine of the Age.

Although there have been many medicinal preparations before the public since the first introduction of Perry Davis' Pain Killer, and large amounts expended in their introduction, the Pain Killer has cantinued to steadily advance in the estimation of the world, as the best Family Medicine ever introduced.

The genuine Perry Davis' Pain Killer is now put up in panel bottles, with the words Perry Davis Pain Killer is now with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved note of hand—none others

I have used that in my family for some two years, and take great pleasure in recommending it as a valuable medicine, that should be kept in every family. I have witnessed wonderful speedy cures by its use—recently, within the last week, I have known a very severe case of rheumatism soon relieved and promising a speedy cure, by this in my estimation, invaluable remedy.

ORNAMENTAL SHRUBBERY!

Eagle Nursery, Elmwood. SILAS Modue, Proprietor.

The subscriber would respectfully call the attention of the public to his extensive and well assorted nursery stock of Trees, Pleats, Fines and Shridbery, which he has on hand at his nursery in Elmwood, in Cranston, only 1 1-2 miles from the centre of Providence.

To his former extensive stock he has made great additions of the several varieties, and flatters himself that no nursery in the vicinity of Providence contains so large a stock, or segreat a variety of all kinds of articles in his line of bosiness. He would call expectal attention to his stock of Fruit Trees, amounting to more than 50,000—a large proportion of which are of extra size and in hearing condition. Among them may be found the Pear, Peach, Phum, Nectatine, Apricot, Quince, Apple, Cherry, and all the different variety known to the American gardner.

The Hartford Prolife Grape Vine, the most delicious and profitable variety of Grapes to be found in this climate, may be had in large quantities and in the most healthy candition. This Grape is new to this part of the country, is very rapid in its growth, bears in greater abundance, and ripens at least two weeks carrier than the Isahella Grape. Also every other variety of Grape Vines.

The "New Rochelle," or "Lawton Blackborry," a new article to our gardens, may also be found at the Eagle Nursery in quantities to supply the market. This Berry is much sought after, and is a very profitable one to cultivate.

Ornamental Trees, of every hardy variety, To his former extensive stock he has made

sought after, and is a very profitable one to cultivate.

Ornamental Trees, of every hardy variety, and every article constantly on hand necessary for a complete assortment of nursery stock; all of which will be suld at as low, if not low or prices, than the same articles can be found any other unvsery in this vicinity.

The Elmwood Omnibus, which passes the Nursery, starts from Market Square in Providence at every hour of the day, at the striking of the clock.

Milford, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood.—Dear Sir.—I take pleas ure in hearing voluntary testimony to the magic effects of your wonderful Hair Restor aftic. As far back as 1856 my hair commenced falling off until the top of my scalp became bald and smooth as glass, and it has continued to fall off for a great many years, nowith-standing I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my atter astonishment I found after a few applications that my hair became firmly set and jussured by very glossy and heautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth or hair, which is now from one to two inches in length, and growing very fast.

lant, which is now from one to two inches in length, and growing very fast.

Yours, truly,

HENRY GOODRICH.

Carlyle, Ill., June 27, 1856.

I have used Prof. O. J. Wood's Hair Restorative, and as I thought permanently gray, but by the use of his Restorative, it has resumed its original color, and I have no doubt permanently so.

FOR SALE AND TO LET.

The Greatest Discovery of the Age.

PROFESSOR WOOD offers for sale perfect HARL RESTORATIVE. It is a short time restore the Hair, which habecome gray prematurely, to its original colol—bring it out where it is gene, and arrest when it is falling off—cleanse the head of dams druff and itchings—remove all cutaneous eruptions, and render the scalp perfectly healthy, by restoring the secretive organs to their original vigor and strength, and thus supply mutrinent and coloring matter to the roots. It does not Dye the hair, but is, in short a perfect Hair Invigorator and Tonic.

To the young, who so much admire the beautiful locks and ringlet, he leels that he will be pardoned if he offers the advice suggested by long study and extensive observation. It is to discard all cologue and stimulating oils for the hoir, and keep always upon the tolic a bottle of the Restorative for occasional use and we can safely predict, that hencefurth sill ver lacks will be upon tald heads. Let the dark eyo be ever so piercing—at the teeth be those of pear—still, if the natural fluids he withheld from the hair, and it consequence becomes first flead and harsh, then gray, or fells off nature will be robbed of more than haff its charms; as it is a soverign recardy for those who are gray as well as those who are buld, all must see the propriety of making only such application to the hair and scalp asis calculated to preserve both in a healthy state.

WASHING BUTTER,-A. B. Dickenson o Hornby, N. Y., accepts the challenge of Robert Brome, to prove that there is no way that butter can be cleaned of buttermilk, so as to make it keep sweet, equal to washing it in clean, cold, soft water. In our opinion Mr. Dickenson undertakes to prove a self-evident proposition. Undoubtedly butter can be worked so as

to keep sweet without washing; so can wheat be cut with a sickle, and thrashed with a flail; but they are not great labor saving machines.

PLASTER.-Gen. R. Harmon of Wheatland, Monroe Co., N. Y., thinks every crop benefitted by plaster, and that upon clover it is indispensable. An application of 100 lbs of plaster will increase the hay crop one third. He sows early in spring on grass, and on grain as soon as it shows green over the ground. Potatoes, he says, should never be planted without rolling the seed in plaster. It is beneficial on all but wet clay plaster. It is beneficial on all but wet clay soils. LOTTERIES

LOTTEBLES.—The Lotteries of Namuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly homorable manner.—They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The manuspers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme on sticket in everyten must draw a prize. Tickets are \$10; halves, \$5; quarters, \$2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fall to understand them. There is no combination of numbers to mistify the buyer. Prizes vary from \$40 to \$50,000? every prize being draw and result of drawing forwarded to all purchasers.

and result of drawing forwarded to all purchasers.

IF A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans Delra, M-bile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Day Hook.—Write your address plainly, and direct S. SWAN & Co., ATLANTA GROBGIA.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential.

Lind Consolidated Lotteries, of which R France & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that overything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present of the deaving reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Muryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes hand. The project of tickets ware from \$\frac{1}{2}\$.00 to \$\frac{1}{2}\$00. sre filled in the first drawing to take place after the communication comes hand. The prices of tickets vary from \$1,00 to \$20.— No tickets however, sent unless the monmoney for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from \$29 to 1000,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address T. HUBBARD & Co.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, urascertaining the patentability of inventions, unaurpased by if not immeasurably superior to any which can be offered them elsewhere. The testinonials below give pruof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accountate a vast collection of specifications and official decisions relative to patents. Theses estiles his extensive library of legal and mephanical works, and full accounts of patent granted in the United States and Europerender him able, beyond question, to offer superor facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TRSTIMONIALS.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Buston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much lusiness before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regar/Mr. Eddy as one of the best Informed actions skillful Patent Solicitors in the United States, and have no hesitation in assuring irrentors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable considers.

THE GREATEST WONDER OF THE AGE.

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE AMINUTES.—M. LERGUX'S French Cholera Cognae Ritters. This truly wonderful scientific compound is recommended by the most eminent and learned physicians of all Rurope and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very shur time, and the hest proof of it is, that since this standard remedy was introduced in the armics of the Allies in the Crimea, the mottality of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, hearing the inscription, "Hail! M Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be lappy at any time to show to any that may wish to see them.

Sole Agenta for the United States, 70 Nassau street, corner of John, N. Y.

P. S.—Those not ablo to pay, may call at my place from 3 to 5 p. m., and receive this remedy gratis.
